Employees of the Department of Commerce will have a Christmas tree celebration this morning. Secretary Redfield will attend the celebration and E. W. Libbey will be Santa Claus. There is a tree ready for the celebration which will be held in the chief clerk's office.

Charles F. Neel, superintendent of insurance in the District of Columbia, has begun an investigation to determine how Washington's fire insurance rates compare with those of other cities. He has sent telegrams to a number of cities asking for rates on dwellings and contents.

A Christmas entertainment, given in a North street restaurant by the local branch of the Electric Vehicle Association of America, Tuesday evening, was one of the most successful functions ever given by the organization. C. R. Erkman, impersonating Santa Claus, presided at an electrically lighted Christmas tree.

Bagdad People Are Suffering.
Ambassador Morgenthau reported yesterday that he was receiving many appeals for assistance for destitute people in the vicinity of Bagdad. Twelve thousand people have been made homeless in that district, he reports, as a result of the overflow of the Nile river. The local assistance rendered is insufficient for the needs of those in distress, he states, and suggests that the matter be referred to the American Jewish committee and the American Red Cross.

Congress Quits for Holidays.
Congress adjourned yesterday for the holiday recess. It will reconvene next Tuesday. So far as anybody in Washington recalls this is the briefest holiday recess of Congress in history. As a rule, Congress devotes two weeks or more to recreation at this time of the year. The recess period was cut short owing to the desire among members to complete the legislative work so as to avoid, if possible, a special session.

Whisky Tax Falls Off.

However, This Is Explained by War Tax Evasions.
A decrease of \$2,300,000 in the October revenues from the tax on whisky compared with receipts for that month a year ago is shown in a statement issued by the internal revenue bureau. This decrease is due partly to the abnormal amounts withdrawn from bonded warehouses in August and September to evade the anticipated war tax on spirituous liquors.

The first four months of the present fiscal year have shown an increase of \$1,600,000. There was a decrease of \$1,000,000 in tobacco receipts for October, as compared with those of a year ago. During the four months of the present fiscal year there has been an increase of \$18,000,000 in tobacco taxes.

PEADS FOR NAVY YARD MEN.

Rodrick Asks House Committee to Give More Wages.

Alfred H. Rodrick, of the Washington Navy Yard, vice president of the National Association of Civil Service Employees of Navy Yards and Stations, yesterday made plea to the House Naval Affairs Committee to correct inequalities of pay and annual leave. It was claimed that navy yard employees are discriminated against.
"We take the same sort of examination as the clerks in the department proper," said Mr. Rodrick, "but we are not classified as to salary grade. We are on the personnel lists, and we receive but fifteen days' leave, although both the annual and per diem employees of the department upon getting thirty days' leave. If a clerk is transferred from another department to the navy yard, he sacrifices fifteen days' leave."

WILL CONTEST VALUATION.

Power Company Denies Utilities Body Can Judge Property.

Correspondence made public yesterday indicates that the Potomac Electric Power Company will challenge the right of the Public Utilities Commission to include the company's out-of-town property in the official valuation of the lighting concern's properties.
The corporation's representative asked the commission to "kindly cite any provision of law whereby your honorable commission is given jurisdiction over any property of our company located within the State of Maryland."
The commission notified the company that it was the opinion of the commission that all the property of the company, used directly or indirectly in connection with its operation as an electrical corporation doing business within the District, becomes a subject for consideration in valuing such property.

BLOODHOUNDS TRAIL SLAYERS.

Dogs Take Trail of Men Who Murdered Wealthy Farmer.

New Rochelle, N. Y., Dec. 23.—Bloodhounds today were put on the trail of the bandits who last night killed Charles Secord, a wealthy farmer, as he drove his team along the Mill road in the town of East Chester. His body was found at the side of the road close to the New Rochelle trolley line with a bullet wound through the ear.
The authorities believe that robbery was the motive for the crime and that the slayers were scared away by the sound of an approaching car, before they could search their victim. Several hundred dollars were found in the dead man's pockets.
The only clue to the slayer, or slayers, is an old plaid cap, found on the trolley tracks a hundred feet from where the victim lay.

TABLEAUX DEPICT CHRISTMAS.

Sidwell's Friends School Pupils Hold Interesting Program.

The musical numbers were rendered by choruses under the direction of the Roman Statler and Miss Blanche Polk-Inhorn, and by Esther Wootton and Richard King as soloists. Numerous patrons and friends of the school were present.

CHARITY MAY HAVE TO CLOSE.

Friendship House Has No Yule Log in Its Fireplace

Lack of funds probably will cause the closing of Friendship House in the near future. This settlement in Southwest Washington has been kept open by donations from residents of Washington for five years. Recently, however, nearly all donations have ceased, the donors sending their money abroad for relief work in the war zone.
When the Mothers' Congress recently decided to provide ice cream for the twenty children of Friendship House for Christmas dinner it was found there will be no Christmas dinner. The house has enough coal to last about a week longer, but there is no yule log in the fireplace about which the poor have been wont to gather.
